ENERGY STORAGE

Global Conference

24 - 26 October
Brussels

VISIT OF ENGIE ENERGY STORAGE PARK IN DROGENBOS POWER PLANT 24 OCTOBER 2018

The Drogenbos project consists of five batteries, having different cell technologies and coming from different suppliers, piloted separately or as a whole for a total of 6 MW/6MWh (Alfen, GE, YOUNICOS, INEO, Toshiba). This initiative is one of the first storage installations in Belgium dedicated to the frequency regulation service with batteries. The fifth technology was chosen with a higher C-rate to enlarge the flexibility of the whole system.

On 24 October 2018, after a global presentation in a conference room, you will have the opportunity to visit the battery park and the control room of the Drogenbos Power Plant, where the batteries are operated.

PROGRAMME

- 8.30 Registration in Brussels, Hotel Le Plaza
- 8.45 Departure for Drogenbos
- 9.25 Arrival at the Drogenbos Power Plant
- 9.30 Welcome and introduction
- 10.00 Visit of the Drogenbos Storage Park
- 11.30 Departure for Brussels
- 12.15 Lunch in Brussels, Hotel Le Plaza

ENERGY STORAGE

Global Conference

24 - 26 October
Brussels

A UNIQUE OPPORTUNITY

The **Energy Storage Global Conference 2018** offers a unique opportunity to industry, researchers and policymakers to **exchange views on key issues for the storage sector**. Representatives from around the world will come together for three days to discuss the latest developments in energy storage technologies, regulatory and policy development and the future storage market.

The third Energy Storage Global Conference is organised by the European Association for Storage of Energy in collaboration with the Directorate General for Energy and the Joint Research Center of the European Commission.

This is your chance to support the leading EU conference on energy storage and to help drive the discussions that will shape the energy storage sector.

ENERGY STORAGE GLOBAL CONFERENCE TICKETS
