

# WORKSHOPS

## ENERGY STORAGE ON ISLANDS

BRUSSELS

21 November 2019

## ISLANDS: A PEEK INTO THE FUTURE

Islands face unique challenges in terms of ensuring a secure and cost-effective energy supply. Many islands have been early adopters of renewables, and have consequently seen some of the world's first deployments of energy storage projects. These projects not only showcase the diversity of storage technologies and applications, but also serve as fascinating case studies for the broader energy system. Islands offer a peek into the future, setting an example for how interconnected systems could someday integrate very high shares of renewables while ensuring buy-in from local communities.

## THE WORKSHOP

The Energy Storage on Islands Workshop will bring together leading energy storage industry experts, EU policymakers, system operators, local authorities, and other stakeholders to explore the experiences gained from storage projects on islands (both interconnected and non-interconnected islands) as well as weak grids.

### **During the workshop, experts will:**

- Present cutting-edge developments in storage technologies
- Address financing and business case aspects
- Reflect on policy and regulatory challenges
- Consider what lessons can be learned for the broader energy system

## ADDRESS THE CHALLENGES AND GENERATE RECOMMENDATIONS

Through an interactive format, speakers and participants will be able to debate the different challenges and opportunities related to storage on islands. Together, they will generate recommendations and solutions that can help the energy storage industry and policymakers support the broader deployment of storage on islands.

## GENERAL INFORMATION

The Energy Storage on Islands Workshop is organised by the European Association for Storage of Energy (EASE).

Stay up to date on storage policy and regulation and benefit from special discounts for EASE events. Get a premium access to all our services and help shape the future of the energy system. Become a member now: contact Ms Doriana Forleo ([d.forleo@ease-storage.eu](mailto:d.forleo@ease-storage.eu)).

### NETWORKING DINNER

**20 November 2019 - starting at 19.00**

Residence Palace  
Rue de la Loi 175  
1048 Brussels, Belgium  
Phone: +32 (0) 2 281 61 11

### ENERGY STORAGE ON ISLAND WORKSHOP

**21 November 2019 - starting at 9.00**

BluePoint Brussels  
80 Bd A. Reyers Ln  
1030 Brussels, Belgium  
Phone: +32 (0) 2 706 88 12

### FOR MORE INFORMATION PLEASE CONTACT

EASE - The European Association for Storage of Energy  
Avenue Adolphe Lacomblé 59/8 -  
1030 Brussels - Belgium  
Phone: +32 (0) 2 743 29 82

## ABOUT EASE

The European Association for Storage of Energy (EASE) is the voice of the energy storage community, actively promoting the use of energy storage in Europe and worldwide.

It supports the deployment of energy storage as an indispensable instrument within the framework of the European energy and climate policy to deliver services to, and improve the flexibility of, the European energy system.

EASE seeks to build a European platform for sharing and disseminating energy storage-related information and supports the transition towards a sustainable, flexible and stable energy system in Europe.

## MEMBERS' BENEFITS

### **Advocacy**

EASE is actively shaping the legal and R&D funding framework for energy storage at EU level. Members gain direct influence in the EU decision-making process.

### **R&D and EU-funded projects**

Members benefit from EASE's expertise and technical know-how, and they can participate in EU-funded research projects.

### **Market intelligence**

Members receive timely information and data about future market developments that can help them adapt to the changing business environment.

### **Visibility and networking**

Featuring in EASE's publications and events, such as the Energy Storage Global Conference, gives members the opportunity to gain visibility and to strengthen their network among storage experts.
